Welcome to Digi'Aware: Empowering Trainers, Inspiring Digital Citizenship

Aims and Objectives of Digi'Aware:

Through the Digi'Aware project, our aim is to empower educators to fully embrace their educational role in shaping responsible, aware, and empowered digital citizens.

Our specific project objectives include:

Developing Digital Citizenship Pedagogy: At the heart of Digi'Aware lies a commitment to evolving digital citizenship pedagogy among trainers working with young learners.

Encouraging Empowerment: Digi'Aware is not just about imparting knowledge; it's about empowering young individuals to define good and bad digital practices for themselves.

Welcome to the Digi-Aware e-Hub: What will we produce?

Through the Digi'Aware project, we aim to produce the following learning materials for educators:

Curriculum resources for educations that address the following themes:

- Understanding young people's digital practices
- Protecting youth from online risks

We will also develop a Toolkit for Educators, that will provide them with:

- Practical resources and exercises for workshops that involve teens and their digital practices
- Digital citizenship and media awareness training modules, comprising 18 hours of online content across 9 modules.
